

We cordially Invite you for the

## “MEDICAL GASES SUPPLY SYSTEMS FOR HEALTHCARE FACILITIES”

### About GIA

Gas Industries Association (GIA) is established by founder members which include the leading Global Industrial gas companies operating in India viz., INOX Air Products Pvt Ltd., Linde India Ltd., Praxair India (P) Ltd., and Air Liquide India Holding Pvt. Ltd.

GIA aims to promote safety, health, security and environmental awareness in industrial (including specialty gases) and medical gases industry. It aims to minimize occupational injuries and illnesses, avoid environmental damage, assure security of hazardous materials and promote continuous improvement in these areas.

GIA is also linked with all major global gas associations like AIGA, EIGA, CGA etc. with similar objectives. With its associations and global expertise and by working closely with Indian authorities, GIA intends to introduce and maintain Global Best Practices and safety guidelines in the Industrial gases industry.

**Date: September 19<sup>th</sup>, 2018**  
**Time: 08.30 am to 17.30 pm**  
**Location: Sofitel BKC Mumbai**

**Chief Guest: CCOE Official**

### About Safety Seminar - 2018

Medical Gases and related systems, are life sustaining and crucial elements for all Healthcare facilities. Such systems must be designed, considering industry best practices and operated by following stringent quality, safety and reliability guidelines. Some recent incidents with serious consequences have shifted focus on the importance of correct designs and adherence of standard operating procedures.

Medical gas supply systems are governed by Health Technical memorandum (HTM) regulations worldwide, and the Indian Pharmacopoeia locally, hence should be fully understood and followed. Manufacturers, traders and logistics services providers must essentially adhere to good manufacturing practices in order to conform to the guidelines..

This seminar will bring together all the relevant topics by way of presentations and experience sharing from the GIA member companies, government representatives and established suppliers. Through our network with Asia and Global Gas Associations (AIGA, EIGA, CGA etc) we shall be highlighting the Global Best Practices and their applications in India..

### Who should attend

This seminar must be attended by professionals from the Medical Gases as well as Medical Equipment Industry from all over India. Those involved in design, project-construction, production, and supply of gases and other related equipment can participate. Senior officials from government bodies like PESO, and major hospitals will be invited for keynote addresses. This seminar will present an excellent opportunity to prospective sponsors to present their products and strengths. This seminar will also be of interest to policy makers and management for getting a wider view of the issues and technologies available.

### Seminars organized by Gas Industries Association

GIA organizes annually seminars on the relevant safety topics. These are a grand success and well attended by esteemed government officials as well as the delegates from industry. We do hope that you will find this an absorbing experience.

### Publications by Gas Industries Association

Gas Industries Association through its Technical Committee and Transport Safety Work Group published regularly technical papers and best practices. These publications have been made available on the association's website, <http://www.gasassociation.in/pub.asp>, free of cost, for the benefit of its members, the gases industry and for all those interested in these subjects.

## SPONSORSHIP REGISTRATION FORM

### Topic: Medical Gases Supply Systems for Healthcare Facilities

**Venue: Grand Salon Sofitel BKC, Mumbai  
C-57, Bandra Kurla Complex, Bandra East, Mumbai 400051, India**

**Date: September 19, 2018**

Company Name \_\_\_\_\_
