We cordially Invite you for the
Safety Seminar 2025 on

Transport Safety - A Priority for the Gases Industry

Date: September 18th, 2025

Time: 08.30 am to 17.30 pm

Location: Hotel Vivanta

Dwarka, Delhi

Introduction to the Seminar theme:

Merchant Industrial Gases are almost always produced in a centralised large and complex plants and then transported to the end users either in compressed or cryogenically liquified form. They are used in a wide range of industries which are either located in Industrial areas or in cities and agglomerations. In both its forms compressed or cryogenic, these gases pose a grave danger if they leak, overflow or suffer any other damage. Considering this, Transportation Safety is the main driver of economics and sustenance of Industrial gases business.

GIA has been at the forefront of Transport Safety advancement since many years. This year's seminar is again designed to give a wholistic picture of Transportation Safety. Looking at the advancements in ESG gases a special focus is given to Hazardous, Speciality and Electronic gases transports. We have also tried to bring in the human factor in driving and transportation safety taking help from external domain experts.

Since a session on Transport safety will be incomplete if we do not consider the practical aspects, we have designed a special session to interact with the drivers who are transporting these gases day in and day out across India. They will bring in a lot of value by their experience of handling supply chain systems in very challenging circumstances and will provide us a subjects for future developments.

Who shall attend the seminar:

Transportation being a central theme of all businesses we invite all manufacturers, transporters, dealers and suppliers, OEM's and customers. Our seminar is relevant not only to Industrial gas sector but it is also very relevant to other industrial segments like Oil and Gas, hazardous chemicals, and other bulk and cargo movers.

We also intend to invite senior officials from Road transportation departments, PESO, IPC, DPIIT and large healthcare institutions to deliberate the regulatory framework, harmonised specifications and policy making.

Our seminar also holds lots of value and interesting subjects for NGOs, Public think tanks, Startups and entrepreneurs looking for new opportunities and also common citizens who would like to learn and be part of the supply chain.

About GIA

About GIA Gas Industries Association (GIA) is a part of leading Global Industrial gas companies operating in India viz., INOX Air Products Pvt Ltd., Linde India Ltd., Praxair India (P) Ltd., Air Liquide India Holding Pvt. Ltd., Taiyo Nippon Sanso India and Air Water India Pvt. Ltd. GIA aims to promote safety, health, security and environmental awareness in industrial (including specialty gases) and medical gases industry. It aims to minimize occupational injuries and illnesses, avoid environmental damage, assure security of hazardous materials and promote continuous improvement in these areas. GIA is also linked with all major global gas associations like AIGA, EIGA, CGA etc. with similar objectives. With its associations and global expertise and by working closely with Indian authorities, GIA intends to introduce and maintain Global Best Practices and safety guidelines in the Industrial gases industry

Transport Safety - A Priority for the Gases Industry

Date: September 18th, 2025

Time: 08.30 am to 17.30 pm

Location: Hotel Vivanta
Dwarka, Delhi

AGENDA

SECTION	TIME	SPEAKERS
Registration	08:30-09:30	
Safety Briefing / Introduction / Lighting ceremony	09:30-09:40	All guests of honour
Opening Remarks	09:40-09:50	GIA President
Introduction to GIA and Seminar Overview	09:50-10:00	Chairman Technical Committee
Key note address by Chief Guest	10:00-10:15	Chief Guest
Key note address by Guest of honour	10:15-10:30	AIIGMA President
Technology advancement, Transport emergency	10.30-11.30	Experts from Linde and Praxair India
Preparedness related to Hazardous, Speciality and ESG Gases	11:10-11:30	External Experts
Tea/ Coffee break/ Networking	11:30-12:00	
Traffic Psychology	12:00 - 12:30	Linde along with Guest speaker
Driver experience sharing & Best driver Rewards	12:30-13:15	Air Liquide India / All Members
Sponsor Presentation	13:15-13:30	
Lunch	13:30-14.30	
Learnings from Incidents	14:30-15:00	INOXAP Experts
Safe LOX Tanker Loading & Unloading	15:00-15:30	Air Liquide Experts
Tea/ Coffee break /Networking	15:30-16:00	
Technology and BOP in Cylinder Transportation	16:00-16:45	AWIPL and TNSI Experts
Awards Ceremony and Closing Remarks	16:45-17:30
